

COSMIC FOG
PREMIUM VAPORS

- **KRYPTONITE**

- My only weakness! A vape you couldn't put down to save your life makes Kryptonite true to its name. A sweet and refreshing blend of cool melon, paired with your favorite candy, makes a bottle of juice that you'll finish as fast as a speeding bullet.

- **MILK & HONEY**

- Close your eyes and imagine a vape lighter than air. You see fields of puffy marshmallows as far as the eye can see. The sky opens and sweet milk rains down. Open your eyes in time for the perfect note of rich honey to cap it all off. Finally you have arrived.... In the land of milk and honey.
